

# Express Product Development Services

In today's world millions of newer and innovative products are released to the market more frequently. Behind this are the consistent product development efforts by the manufacturers. There have always been quests for finding out faster and better processes of product development. Esquire Engineering Solutions (EES) Limited an engineering solutions organization -part of more than 100 years experienced Best and Crompton group, has come out with such latest process called xPD- Express Product Development.

- ### XPD Features
- Laser Scanning
  - Quick Surfacing
  - Early Analysis
  - Rapid Inspection
